LD/CD

1. Your instruction noted on the attached memo to the DDP from Chief, Regulations Control Staff, dated 17 March 1954, asks for this Division's reply by 5 April. LD recommends OCD concurrence in the attached proposed regulation.

2. The attached draft is substantially the same as the draft concurred in by OCD on the same subject on 21 August 1953. Proposed changes from the former draft are largely of form only and, we believe, have no important effect on OCD operations. The only major change is the addition of a new paragraph e. which requires coordination with the DDP by any overt office representatives attending international conferences, etc. prior to the issuance of travel orders. This, of course, merely requires conformance with other Agency regulations.
